Certum Electronic Seal

Affix seals to documents on-line.

Certum's qualified electronic seal is the digital equivalent of your corporate seal. It does not contain the data of an individual, but only the data of a legal entity. It allows you to authenticate and maintain the integrity of e-documents. It provides security guarantees, meets all the requirements of European Union law and complies with the eIDAS regulation.

Who can use the certificate?

Companies

Organizations

Public administration
entities

Local government
units

Why Certum Electronic Seal?

- It is automatically recognized in Adobe software.
 - It authenticates the sender and meets all security requirements.
 - It identifies the company and enables data integrity.
 - It provides sealed documents with full legal force.
-

Get **more**.

Using the Certum Electronic Seal you:

- Build trust and credibility in your business.
- Increase your company's recognition in the marketplace.
- Use a tool compliant with international standards.
- Ensure a high level of security for your document circulation.
- Automate processes, thus saving time and money.
- Seal documents with company data, not personal information.

Use as you wish.

The Certum Electronic Seal is available in two variants. Choose the one that fits your needs better.

Do you need full mobility? Seal your documents in the SimplySign app.

- you can use it on smartphones, tablets and computers,
- you can use it anywhere, anytime,
- authentication is performed as a two-step process (TFA).

The app works on Windows, macOS, Android and iOS

Do you authenticate e-documents in your office? Use the card and the reader.

- you receive a small, handy device and drivers,
- you can use them on your computer,
- authentication is performed in one step.

The reader runs on Windows and macOS

One certificate. Broad application.

The Certum Electronic Seal can be used to mark both official company correspondence and internal documentation in your organization. Thanks to that, you can archive your protected documents.

External documentation

- customer offers
- flyers
- e-invoices
- legal documents

Internal documentation and archiving

- employee documents
- archived contracts
- plans and strategies
- reports and statements

Bet on quality.
