# Certum eMail ID (S/MIME)

## Secure your email.

The Certum eMail ID (S/MIME) Certificate is a widely accepted protocol for automatically signing and encrypting messages. It confirms the identity of the sender and protects all emails sent from possible data leakage or tampering.

### Choose **Certum eMail ID** and gain:

- personal safety certificate,
- confidence that no one has tampered with the content of your email,
- guarantee of correspondence confidentiality,
- the ability to verify the certificate and the origin of the message,
- highlighting your email in the recipient's inbox.

---

### Match the certificate to your needs.

#### Certum eMail ID Individual

Verify and confirm the authenticity of the email address. Build credibility and take care of your online privacy.

#### Certum eMail ID Business

Verify and confirm personal and company data. Secure communication with customers, clients and within your organization.

---

### For you. **For your business.**

Earn the trust of your business partners.

#### Certum eMail ID Business allows you to:

- authorize your first and last name and your company data,
- encrypt, sign and authenticate your business email,
- protect messages and attachments from forgery,
- secure your data in accordance with the GDPR.

## Improve the security of your **company-wide communications.**

Save time and use the new group certificate activation app! With just a few clicks you can order and issue Certum eMail ID Business certificates to all employees in your organization.

### Group activation enables:

- quick order of any number of certificates [several hundred in just a few seconds],
- one-time verification for an unlimited number of employees,
- automatic issuance of Certum eMail ID Business certificates,
- remote download of ready-for-installation certificates.

---

## Choose Certum eMail ID and gain:

Effective  
protection

Guarantee  
of confidentiality
