#### Full trust

Your website is marked with a padlock icon and the https protocol designation in its URL address which build credibility and trust with your recipients.

#### Compliance with the GDPR

You can guarantee the proper processing personal of data in line with all regulations.

## Choose a certificate tailored **to your needs:**

Increase trust in your website. Provide users with the appropriate level of security.

	<b>DV</b> [Domain Validation]	<b>OV</b> [Organization Validation]	<b>EV</b> [Extended Validation]
Security level	basic 	high 	top 
Certificate secures	<ul style="list-style-type: none"><li>• non-commercial websites</li><li>• online forums</li><li>• blogs</li></ul>	<ul style="list-style-type: none"><li>• online stores</li><li>• business websites</li><li>• public administration websites</li></ul>	<ul style="list-style-type: none"><li>• lectronic banking</li><li>• financial institutions and insurance company websites</li><li>• eHealth</li><li>• prestigious online stores</li></ul>
Verification of	domains	organizations	extended verification of organizations
Certificate issued	in a few seconds	in 5 days	in 7 days
Data contained in the certificate	domain name	domain and company name	domain and company name
Financial guarantee	<b>€ 200,000</b>	<b>€ 400,000</b>	<b>€ 1,000,000</b>
Domain security	Wildcard Multidomain	Wildcard Multidomain	Multidomain

## One certificate. **Multiple domains.**

### Do you own multiple subdomains? Choose **SSL Certificate with the Wildcard feature!**

DV and OV Certum SSL Certificates provide automatic protection for your main domain and any number of subdomains. You will secure multiple websites, such as subpages of a blog, an online store and many other sites linked to your main domain.

### Do you operate multiple websites? Choose **SSL Certificate with Multidomain feature!**

Certum SSL allows to secure up to 10 different domains. Its purchase is more beneficial than that of 10 individual certificates. You not only save money, but time as well, because securing websites using Certum SSL is much faster than installing multiple certificates.

---

## How to activate **SSL certificate?**

It only takes 4 simple steps to secure your website.

1

Order the certificate of your choice.

2

Select the domain you want to secure.

3

Confirm that you are the owner of the domain.

4

Activate the Certum SSL Certificate.

---
